MASTER FORUM SURVEY REPORT – BARRY CHUDAKOV

Additional comments

- The session was 'okay'. In some ways it was too esoteric to be applied after leaving the meeting without more information or context. I tried to find more information online after the session and the website really did not have meaningful information that I could use.
- I always enjoy the Masters Forum but Barry's session was one of the most outstanding. His goal was to get us to think differently and he most certainly achieved it. Thank you for bringing Barry to the Masters! (I just wish Barry lived closer so I could meet him for coffee and extended conversation!)
- Very thought provoking but ahead of his time. Also would have preferred some more concrete ideas.
- This was a very stimulating session, as usual. Barry challenged us to think about what we think through; I found his "stories" particularly relevant. Since attending, I have thought about the session often and talked with friends about it as well. Thanks
- Really stretched my mind. Eager to revisit the material.
- When I walked out of the auditorium, my head hurt ... in a good way. A lot to absorb.
